Supervision	Not In Compliance
5 - Children Supervised 922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who: a. Ensures the child is within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;	Not In Compliance
Findings: General: Based on Review of Documentation, interview and observation, this regulatory requirement was not met. On 9/20/17 the director reported to the DRCC office that on 9/20/17 at approximately 4:40PM a two (2) year old child exited the Monkey Classroom and walked down the hall to the Giraffe Room doorway. Staff working in the Giraffe Room looked up and observed the child standing at the gate in their doorway. One of the staff working in the Giraffe Room picked up the child and carried him back to the Monkey Classroom through an adjoining closet. The staff working in the Monkey Classroom were not aware that the child was missing until the staff person in the Giraffe Room knocked on the closet door. The director's written statement sent to the DRCC office as notification of the incident stated, "Teachers estimate that he was out of the classroom no longer than ninety (90) seconds". A staff person working in the Monkey Classroom at the time of the incident stated in written documentation that she submitted to the facility, "He couldn't have been gone more than a minute to a minute in a half". A second staff person working in the Monkey Classroom at the time of the incident stated in written documentation that she submitted to the facility that the child was gone "90 seconds at the most". Staff stated during interview and via written documentation submitted to the facility that the latch on the gate in the doorway of the Monkey Classroom was not secure; therefore, the child was able to open it and exit the classroom.
