Findings:

General: Based on Interview, it was revealed that a staff person told a four (4) year old child to bite a three (3) year old child back after he had been bitten on the arm on 4/24/13. A statement written by the staff person was presented for review during the investigation. The statement read, "I went to get (the biter) and brought him over to the sink area where the child who had been bitten was. I instructed the child to bite (the biter) back, trying to impress upon how biting hurts." A witness to the incident reported that the staff person told the child who had gotten bit, to bite the child back as hard as he could. Based on written statements and staff interview it was confirmed that the staff person involved in this incident failed to provide and promote the children's emotional and social well being in a positive manner and according to each child's developmental level.
