655 - Child Personal Care/Handwashing		Not In Compliance

922 KAR 2:120. Section 3. General Requirements.

(4) A child shall:

(a) Be helped with personal care and cleanliness based upon their developmental skills; and

(b) Wash his or her hands with liquid soap and warm running water:

1. a. Upon arrival at the center; or

b. Within thirty (30) minutes of arrival for school-age children;

2. Before and after eating or handling food;

3. After toileting or diaper change;

4. After handling animals;

5. After touching an item or an area of the body soiled with body fluids or wastes; and

6. After outdoor or indoor play time; and

(c) Use hand sanitizer or hand-sanitizing wipes if liquid soap and warm running water are not available in accordance with paragraph (b) of this subsection. The child shall wash the child's hands as soon as practicable once liquid soap and warm running water are available.

Findings:

General: Based on observation, the child care center failed to comply with hygienic practices in accordance with regulatory requirements. Observation in the classroom with the Three and Four-year-old children revealed the children did not wash their hands with soap and running water prior to being served lunch. Although children and staff had access to a sink with running water and soap, the staff member went to each child with Germ-X and instructed them to put their hands in their laps after they received their Germ-X hand sanitizer before receiving their individual plates.
