General: Based on observation and interview, the following was found:

1. Upon entering the facility for her shift at 6:30 a.m. on 11/3/2020, a staff person informed the staff person in charge that she had a "horrible" headache and that her whole body hurt. The staff person reported that she requested to leave early due to the symptoms. However, this staff person was asked to work a second shift in the Three's classroom, and stayed until 6:00 p.m.
2. The block area and the book area of the School-age classroom were located in the front hallway of the facility. There was no barrier between these areas and the main hallway. All children and staff enter the facility through the main hallway.
3. An eight-year-old child was observed in the School-age classroom with no face covering on his face.
4. A staff person witnessed three other staff persons taking turns using the same computer for a facility-wide training. The staff person stated that the computer was not cleaned or sanitized between uses.
5. In interviews with staff, it was determined that on 11/3/2020, two staff persons took a 15 minute break together in one of the staff person's car. According to staff, masks were removed while in the car due to eating and drinking.
