1000 - Bottle Feeding **Not In Compliance**

922 KAR 2:120. Section 3. General Requirements.

(11) While bottle feeding a child, the:

(a) Child shall be held; and

(b) Bottle or beverage container shall not be:

1. Propped;

2. Left in the mouth of a sleeping child; or

3. Heated in a microwave.

Findings:

General: Based on observation and interview, the child care center failed to maintain food service in accordance with regulatory requirements. An infant was observed laying in a "bouncy" seat holding a bottle for self-feeding. Interview with the staff revealed the infant was four-months-old. Continued observation revealed a six-month infant was being fed while in a bouncy seat. Therefore, the infants were not being held during feeding.
