Not In Compliance

Findings:

General: Based on observation during a tour of the Yellow Room, the surveyor observed a child (DOE: 07/01/11) leave the classroom with an adult female. Through interview with a staff, the surveyor learned that the adult female was a Speech Pathologist who provided services to two (2) children at the child care center. Upon reviewing the two (2) children's enrollment files, the surveyor did not find documentation giving consent for the children to be under the supervision of the Speech Pathologist.

Yellow Room: Based on observation, a three-year-old male child was in the bathroom playing with the toilet handles (flushing the toilet over and over) and the staff person was not aware that the child was in the bathroom.

Kindergarten: Based on observation, a five-year-old child left the kindergarten classroom, walked up the hallway, went up two flights of steps, and walked down a hallway through a set of doors and to the office area without supervision of staff. Interview with a staff person in the kindergarten room revealed that she allows only two (2) children to "leave the classroom without staff supervision because they are trustworthy".
