Findings:

General: Based on Review of Documentation, this regulatory requirement was not met. On 10/5/15 an administrative staff person notified the DRCC office via email that there had been a change of director at the facility. The email stated that the former director's last day at the facility was 9/24/15 and the email identified the name of the new director. The administrative staff person was notified on 10/20/15 and 11/25/15 of the documents needed to qualify the new person as the director and informed that these documents needed to be submitted to the DRCC office. As of 12/9/15 this documentation has not been submitted to the DRCC office; therefore, there is no evidence that the new director meets the regulatory requirements to be a director of a Type I facility.
