(full day of care) 30

***Maximum Group Size shall be applicable only to Type I child-care centers.**

Inspection Report**Director Requirements****265 - Health, Safety, Comfort****Not In Compliance****922 KAR 2:110. Section 4. Director Requirements and Responsibilities.****(1) Effective with the adoption of this administrative regulation, a director shall:****(l) Provide for the health, safety, and comfort of each child;****Findings:**

General: Based on Interview and record review, 1/25/16 a four (4) month-old infant was fed another infant's bottle. The bottle contained breast milk. One (1) teacher obtained the bottle from the refrigerator and placed it in the bottle warmer to warm the bottle. This teacher instructed the other teacher in the room to get the bottle out of the warmer and feed it to the four (4) month-old child. The staff member that fed the bottle to the child stated that she was new and had only been in the infant room working for 1 or 2 days. The staff member indicated in interview that the bottle had the correct child's name on it and she fed it to the wrong infant as she was instructed by the other teacher. The staff member indicated after a few minutes the four (4) month-old infant's mother arrived to pick her up and she said to the staff member "That's not her bottle!" The staff member then stopped feeding the bottle to the infant. The staff member indicated that she did not feed the child very much of the breast milk bottle before the parent arrived. The staff member estimated it was about a half of an ounce.
