	No. of Children Present: 53	

Inspection Report	
Supervision	Not In Compliance
100 - Activity Areas/Equipment/Materials	Not In Compliance
922 KAR 2:120. Section 3. General Requirements.	
(2) Activity areas, equipment, and materials shall be arranged so that the child's activity is adequately supervised by staff.	
Findings:	
General: Based on interview, this regulatory requirement was not met. On 7/18/21 the facility reported to the DRCC office that a preschool male enrolled at the facility entered the girls' bathroom while a female child was sitting on the toilet using the bathroom. The male child bent down and looked between the female child's legs. Interviews with staff during the investigation revealed that a staff person heard voices in the girls' bathroom and entered the area to see what was going on. The staff person observed the male child squatted down and looking at the female child's genital area. The staff person immediately redirected the male child out of the bathroom. Staff stated that there was no physical contact between the two children. The children were not being adequately supervised at the time of the incident.	
Staffing Requirements	In Compliance
