Findings:

General: Based on Observation, it was found that on the video surveillance taken on 9-16-14 at time stamp 11:42 a.m., a staff person can be seen holding a two-year-old child while attempting to move another child to his mat. The staff person was observed to be holding the child by the wrist when he became "dead weight" and dropped to the floor. The staff person continued to hold the child's wrist and dragged him approximately four (4) feet across the floor to his mat. The child reportedly did not show any signs of distress until after naptime. The child's grandmother took him to the hospital where it was found that he had nursemaid's elbow in his right arm.
