Supervision

5 - Children Supervised

Not In Compliance

922 KAR 2:120. Section 2. Child Care Services.

- (3)(a) Each center shall maintain a child-care program that assures each child will be:**
- 1. Provided with adequate supervision at all times by a qualified staff person who:**
 - a. Ensures the child is within scope of vision and range of voice; or**
 - b. For a school-age child, within scope of vision or range of voice;**

Findings:

General: Based on Observation, and interview, it was determined the center failed to comply with regulatory requirements regarding supervision, specifically ensuring the children are within scope of vision and range of voice. At approximately 3:00 p.m. on 11/12/14 an infant was observed sleeping in a crib located in an area along a half-wall which divides the infant classroom. Further observation revealed two (2) supervising staff members sitting in rocking chairs located in the area on the opposite side of the half-wall; the sleeping infant was out of the scope of vision of both staff members. Interview revealed the infant had been sleeping for approximately one (1) hour and both staff members had been feeding other infants for approximately five (5)-ten (10) minutes. Additionally, interview revealed that it is normal practice for children to sleep on one side of the classroom while the staff members care for children on the opposite side of the classroom because the children are "checked on" occasionally.
