922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who ensures the child is: a. Within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;	
Findings: General: Based on interview and record review, in November of 2018, a four (4) year-old child was left unsupervised in the classroom for approximately five (5) to ten (10) minutes while her class was outside on the playground. A staff member that was on her break found the four (4) year-old child in the Flying Fish Preschool Room alone, crying, without any adult supervision. The staff member looked for the child's teachers in the classroom and did not locate them so she took the child to the playground where her class and teachers were located. The teachers on the playground were unaware that the child was not with the rest of the class on the playground.
