- 7. Tactile or sensory activity;
- 8. Multi-cultural exposure;
- 9. Indoor or outdoor play in which a child makes use of both small and large muscles;
- 10. A balance of active and quiet play, including group and individual activity;
- 11. An opportunity for a child to:
 - a. Have some free choice of activities;
 - b. If desired, play apart from the group at times;

Findings:

General: Based on interview, it was found that the center did not provide developmentally appropriate programming or programming that supported the child's emotional well being. The preschool children all receive a sticker chart that is used to help reinforce positive behavior. Each child can earn ten (10) stickers and then get an item out of the treasure chest. Based on interviews with staff, one of the teachers took a four-year-old child's sticker chart and threw it in the garbage can in front of the child and the children in the class. Per interview, the incident caused the child to be very upset for several days.
