Findings: General: Based on review of documentation and interviews, it was revealed that on 11/22/16 at approximately 4:21 p.m. a staff person inappropriately grabbed a three (3) year old male by his wrist and lifted him off of the floor in order to move him to another spot. A few minutes later, the staff person grabbed the child again by his wrist and dragged him a couple of feet across the classroom by one arm. Video footage shows that the child's feet/legs were off of the floor as the staff person was lifting him by his wrist. Video footage shows the staff person dropping the child to the floor as the child's mother enters the classroom. The child gets up and runs to his mother. A person who witnessed the incident stated that the staff person was upset because the child would not go to a "center". The witness stated that the staff person kept yelling "Get in your center!" She stated that when the child refused, the staff person tried to physically move him to a center. It is important to note that the owner terminated this staff person shortly after the incident.
