#### 196 - Safe Sleep Placement

Not In Compliance

##### 922 KAR 2:120 - Section 3

(12) Staff in a child-care center shall follow the most current policy of the American Academy of Pediatrics, located at <http://www.aap.org/>, when placing a child to sleep.

##### Findings:

infants: Based on Observation, a two (2) month old child was observed sleeping in a "Boppy Pillow" in a crib. A blanket was also observed pulled up around the child's face. The infant was also sucking on a pacifier. Interviews with staff found that there was not a medical statement on file indicating that the infant is required to sleep in the "Boppy Pillow". Staff also indicated that the infant's mother works at the facility and that the mother put the child in the "Boppy Pillow" and pulled the blanket up around the infant's face. The American Academy of Pediatrics practices the policy that blankets be kept away from an infant's face who is sleeping and that items such as pillows and stuffed animals not be placed in an infant's crib.
