Inspection Report	
Director Requirements	Not In Compliance
350 - Health, Safety, Comfort	Not In Compliance
922 KAR 2:090. Section 10. Director Requirements and Responsibilities.	
(1) A director shall:	
(l) Assure the health, safety, and comfort of each child;	
Findings:	
Based on review of written documentation and interviews, the child care center director failed to assure compliance with regulatory requirements with regard to the health, safety and comfort of a child in care. Review of written medical documentation revealed a child with an enrollment date 08/20/18 has a history of febrile seizures. Based on review of written documentation and interviews, on 02/06/19, the child became ill and the child’s teacher notified the office at 10:59 AM and requested that someone come to take the child’s temperature. The office staff did not respond to the request for assistance, at which time, the child experienced a febrile seizure and was rushed to the hospital by ambulance. Interview with the child care center director revealed she was made aware, upon the child’s enrollment on 08/20/18 that the child had a history of febrile seizures. Further interview revealed the director did not act upon the request for assistance due to a telephone conversation with the finance division of her agency. Interviews revealed staff overheard the telephone conversation and attempted to assist the child without request from the director. The child was carried to the office at 11:15 by staff.

Children's Records

Not In Compliance

1140 - Enrollment Information

Not In Compliance

922 KAR 2:090. Section 9. Records.

(1) A child-care center shall maintain:

(b) A written record for each child:

1. Completed and signed by the child's parent;
2. Retained on file on the first day the child attends the child-care center; and
3. To contain:
 - a. Identifying information about the child, which includes, at a minimum, the child's name, address, and date of birth;
 - b. Contact information to enable a person in charge to contact the child's:
 - (i) Parent at the parent's home or place of employment;
 - (ii) Family physician; and
 - (iii) Preferred hospital;
 - c. The name of each person who is designated in writing to pick-up the child;
 - d. The child's general health status and medical history including, if applicable:
 - (i) Allergies;
 - (ii) Restriction on the child's participation in activities with specific instructions from the child's parent or health professional; and
 - (iii) Permission from the parent for third-party professional services in the child-care center;
 - e. The name and phone number of each person to be contacted in an emergency involving or impacting the child;
 - f. Authorization by the parent for the child-care center to seek emergency medical care for the child in the parent's absence;

Findings:

Based on review of written documentation and interviews, the child care center failed to maintain children's records in accordance with regulatory requirements. Upon request, the child care center director failed to provide documented evidence of medical information for a child enrolled on 08/20/18. The child suffered a febrile seizure on 02/06/19 and upon review of the child's record, there was no indication of Medical Information for the child per the director's statement. Interview with the parent and director revealed the information was discussed with the previous director upon enrollment; however, was not documented in the child's record.
