Supervision	Not In Compliance
5 - Children Supervised	Not In Compliance
922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who: a. Ensures the child is within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice; Findings: Based on observation and review of video footage, the class completed a practice fire drill for fire safety week on October 2, 2017. During this practice drill, a child was left unattended in the classroom for a total of two to three (2-3) minutes. It was observed on video that the child was in the bathroom when her class exited the room and when she came out of the bathroom she was in the classroom for one (1) minute alone when another teacher heard the child and went inside the classroom. The child was taken to the front office where staff let the child's teacher know what occurred and addressed this supervision issue. The teachers in the classroom stated that they did not follow the typical fire drill procedure due to this being a fake drill but did think they counted the right amount of students. They admitted the count was wrong, resulting in one child being left in the room.
