455 - Discipline	Not In Compliance

922 KAR 2:120. Section 2. Child Care Services.

(10) A child shall not be subjected to:

- (a) Corporal physical discipline pursuant to KRS 199.896(18);**
- (b) Loud, profane, threatening, frightening, humiliating, or abusive language; or**
- (c) Discipline that is associated with:**
 - 1. Rest;**
 - 2. Toileting; or**
 - 3. Food.**

Findings:

General: Based on interview, review of documentation and observation of the center's video footage for 10/8/19, it was determined a caregiver, hired 7/11/18, roughly grabbed a two-year-old child by his forearms, pulled the child up from the floor, forcefully placed the child in a chair, and roughly pushed the seated child back to the dining table. The same caregiver removed a three-year-old child's plate and another child's plate of food and their cups of milk before the children were finished with lunch. The three-year-old child asked three (3) times for additional food and milk, but was told "no" each time by the caregiver. The three-year-old child then reached for another child's cup of milk and the caregiver slapped the three-year-old's forearm with her hand, making the three-year-old child cry.

510 - Appropriate Use of Food

Not In Compliance

922 KAR 2:120. Section 9. Food and Meal Requirements.

(2) Food shall not be:

- (a) Used for reward;**
- (b) Used for discipline;**
- (c) Withheld until all other foods are consumed; or**
- (d) Served while viewing electronic devices.**

Findings:

General: Based on interview, review of documentation and observation of the center's video footage, it was determined a caregiver, hire date 7/11/18, removed two (2) children's plates of food and their cups of milk before the children were finished with lunch, as a form of discipline. The caregiver became upset when one (1), two-year-old child spilt his milk. The caregiver removed the child's plate and cup, verbally stating the child would not get any more milk and her patience had ran out with all of these children. The caregiver, hire date 7/11/19, became more agitated when a three-year-old child separated her food into piles of what she liked and disliked. The caregiver accused the child of playing with her food and removed the child's plate of food and cup of milk. The three-year-old child asked for food and milk three (3) times but was told no by the caregiver each time.
