922 KAR 2:090. Section 10. Director Requirements and Responsibilities.	
(1) A director shall:	
(l) Assure the health, safety, and comfort of each child;	
Findings:	
General: Based on review of documentation and interview, the surveyor found that the children's comfort was compromised by implementing the practice of making two-year-old children in the process of potty training wear bladder control pads intended for adult use. Staff reported that the practice was implemented as an alternative to using pull-ups on the children because the children associate pull-ups to being just like a diaper: therefore, the use of pull-ups was hindering the children's progress with potty training. According to staff, the practice of having the children wear bladder control pads was discontinued as of 4/20/18.
