Findings:

General: Based on Interview, the infant room was exceeded the required staff to child ratio on 2/10/16. On that day there was one (1) staff person with seven (7) infants for approximately ten (10) minutes. The staff issue was the result of a staff person who did not follow the proper procedure for calling in. Also, during interview it was found that the younger infant room is over staff to child ratio during morning arrival time.
