Director Requirements and Responsibilities.****(1) Effective with the adoption of this administrative regulation, a director shall:****(l) Provide for the health, safety, and comfort of each child;****Findings:**

General: Based on Interview, and a review of documentation, the child care center director failed to assure the health, safety and comfort of a child. Based on interviews, a preschool, female child was placed into a darkened bathroom with a closed door, twice on 09/10/15 by a staff member. Based on further interviews, a staff member reported finding the child crying hysterically in a dark bathroom. Based on further interview, during the first incident, the child was in the bathroom for approximately 3-5 minutes. Based on continued interviews, the staff in charge stated she observed the child standing in the bathroom and took the child to the office but was unaware how long the child had been in the bathroom. Additionally, the staff in charge stated a staff member had stated she had placed the child in the bathroom to "calm herself". Continued interviews revealed the staff member stating she had placed the child into the bathroom only until she calmed down after becoming upset over an incident regarding a piece of candy. Based on a review of documentation, a DPP-115 revealed a child had reportedly been placed into a darkened bathroom with a closed door for punishment.
