Inspection Report	
Background Checks	In Compliance
Supervision	In Compliance
Staffing Requirements	In Compliance
Programming	Not In Compliance
455 - Discipline	Not In Compliance
922 KAR 2:120. Section 2. Child Care Services. (10) A child shall not be subjected to: (a) Corporal physical discipline pursuant to KRS 199.896(18); (b) Loud, profane, threatening, frightening, humiliating, or abusive language; or (c) Discipline that is associated with: 1. Rest; 2. Toileting; or 3. Food.	
Findings: General: Based on observation, interview and review of documentation, a three-year-old child ran around the room smacking the children with his blanket. The caregiver asked the child to lie on his mat for naptime. The caregiver placed her left arm over a three-year-old child's back; used her right hand to continuously pat the child's back; laid on her stomach with her right leg straight, her left leg bent over top of a three-year-old child's legs during naptime on 05/24/19. The child attempted to raise up but the caregiver raised her left arm off of the child's back and took each of her hands, placed each hand on each side of the child's stomach, to place the child back down onto his mat. The caregiver prevented the child from getting up during naptime. Video and interview determined the incident occurred for a total of two (2) minutes but was "roughly" recorded for twenty-five (25) seconds.	
505 - Rest Period - Alternate Activity	Not In Compliance
922 KAR 2:120. Section 6. Sleeping and Napping Requirements. (5) A child who does not sleep shall be permitted to play quietly and shall be visually supervised.	
Findings: Based on video observation and interview, a three-year-old child was on a cot during naptime, between 11:00 and 12 noon, on 05/24/19. A caregiver laid on her stomach with her right leg straight out and her left leg bent and placed over the three-year-old child's legs. The caregiver's left arm was over the three-year-old child's back, which prevented the child from getting up. The three-year-old child raised up but the caregiver raised her left arm off the child's back, used both of her hands, one hand on each side of the child's stomach, and laid the child back down onto his mat. This child was forced to remain on the cot and not offered an alternate activity.
