Findings:		
General: Based on Observation and interview, a child from the four (4) year old classroom left the classroom and went to the restroom unsupervised. This was observed during a walk-through observation of the center and the the staff person in charge thought the child had been dropped off and left in the restroom by his mother. However, the sign-in sheet showed that he had been signed at 1:20 PM. The classroom teacher said that he had left the classroom to go to the bathroom. The bathroom is located across and down the hall from the classroom. The classroom and the bathroom doors were closed.
