Inspection Report	
Supervision	Not In Compliance
90 - Children Supervised	Not In Compliance
922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who ensures the child is: a. Within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;	
Findings: General: Based on interview with multiple individuals, the surveyor determined the following: 1. A three-year-old child was out of scope of vision of daycare staff when the three-year-old child was loaded onto a county school bus by center staff on 8/14/19. The child was taken to the elementary school; however, the child was not due to start preschool until 8/26/19. Staff stated they did not realize the preschool started on a later date than the rest of the school system. 2. A three-year-old child exited the front door of the child care center alone without staff supervision. A staff person quickly retrieved the child and returned with him, inside the center.	
Staffing Requirements	In Compliance
Director Requirements	Not In Compliance
350 - Health, Safety, Comfort	Not In Compliance
922 KAR 2:090. Section 10. Director Requirements and Responsibilities. (1) A director shall: (l) Assure the health, safety, and comfort of each child;	
Findings: General: Based on interview and review of documentation, the surveyor determined that the health, safety, and comfort of a three-year-old child was compromised on 9/4/19 when the child sustained significant abrasions/scratches to his back after falling out of a swing on the playground. Per staff and collateral interview, staff failed to inform other supervising staff as well as the parents of the child's accident and subsequent injuries thus preventing them from monitoring the child for discomfort or additional injury to the effected area. Staff stated they did not inform staff taking over supervision of the child of the accident and supervising staff stated they could not remember if the parents were informed of the accident or injuries.
