Findings:

General: Based on review of documentation and interview, on 07/18/2017, while the teacher was getting ready for naptime, there were three (3) children running around the room and a few children already on their cots. The teacher continued getting cots ready for naptime and did not address the children who were running around the room. One (1) child who was three (3) years old bit another three (3) year old child who was already laying on her cot. The child on the cot received a bruise and some cuts on her face from the other child. The video showed the teacher with her back to the children and not addressing the children running around.
